

Accelerator Kollicoat® Products

Process information

Application: Formulation of pharma products

Customer Industry: Pharma

Market: Global

Sustainability performance

- Increase resource efficiency and reduce waste:
 - No plasticizers needed
 - Improved storability: storable in different humidity conditions and defect rate reduction (e.g. Kollicoat® protect)
-

→ Designed to be safe – more sustainable coating process

Benefits

- Process efficiency:
Easier and faster to handle, reduced formulation complexity.
 - Cost efficiency:
Flexible production and improved productivity, leading to up to 60 percent lower costs for tableted costing material of processing.
-
