

# Accelerator Kollicoat<sup>®</sup> IR & Kollicoat<sup>®</sup> Protect

---

## Product information

**Application:** Formulation of pharmaceutical products

**Customer Industry:** Pharma

**Market:** Global

---

## Sustainability performance

- Lower viscosity product eliminates the need for additional plasticizers or solvents, reducing formulation complexity and increasing the process efficiency
- Product can be prepared at a higher solids content, enabling faster coating processes at low and high temperatures, reducing energy consumption

## Benefits

- Resource efficiency
- Waste reduction
