

Introducing
Virtual audits
From BASF Pharma Solutions

Audit BASF's ibuprofen facility in Bishop, Texas without leaving your desk with our new virtual audit service.

State of the art technology using actual footage from Bishop ibuprofen facility

Immersive multi-media experience, including 360° views, videos, photos, presentations and more

Easy to navigate and create a customized experience based on auditor interests and requirements

Includes highlights of the site's history, process chemistry and quality systems

Extra focus on areas not typically accessible during in-person audits, including packaging, laboratory and warehouse

Ready to get started?

Contact your BASF Account Manager for more information.*

Learn more about our ibuprofen production at pharma.basf.com

*A signed NDA will be required to access virtual audits.
